

Fall Workshop for Parents, Teachers & Therapists: How to help your clients and kids get the most out of this school year!

Sponsored by A Chance to Grow—Helping Children & Adults Reach Their Highest Potential

The Perfect Storm—Exploring the Hidden Causes Behind Autism, ADHD, Anxiety, Asthma, Sensory Processing, Ear Infections, & More

Tye Moe, D.C.

Tuesday, November 3, 2015 from 6:00-7:00pm

This unique live event will help you understand the causes behind the meteoric rise of ADHD, Autism, Spectrum challenges, sensory integration disorder, seizures, anxiety, and weak immune systems—and what you can do.

The Perfect Storm workshop provides keys to the causes behind childhood neuro-developmental issues.

You will learn:

- Why a child may be stuck in a stressed state known as “sympathetic overdrive”
- How this stressed state can delay development, impair health, weaken the immune system, and lead to many childhood concerns
- Action steps to calm, balance, and re-integrate a child’s autonomic nervous system and shift him or her into a better state for learning, growth, and normal neurodevelopment

Special emphasis will be placed on the role of the brain and its conduit to the body, the spinal cord.

Dr. Tye Moe and Dr. Chelsey Henney have a passion for two things—neurological chiropractic and healthy kids! Dr. Moe and Dr. Henney specialize in very specific, very gentle, and very *effective* neurological chiropractic care. In addition to *outstanding success* in helping kids with complex neurological concerns, the doctors enjoy helping kids with ear infections, colic, digestion issues, and poor sleep. Their most

Workshop will be held at A Chance to Grow www.actg.org

1800 2nd St. NE, Minneapolis, MN 55418
